PARENTERAL THERAPY CERTIFICATION EXAMINATION - February 2007

Date of Examinations: Tuesday, February 27, 2007 Time: 9:00 am

Location: Canadian College of Naturopathic Medicine, North York, Ont.

Application Deadline: January 25, 2006

To be eligible to take the BDDT-N Parenteral Therapy Certification examination, the candidate must have successfully completed an approved course on IV/Parenteral Therapy technique within the past year. We require proof of passing the course, such as a copy of the certificate of completion from the presenting organization, prior to taking the exam.

The fee for the Parenteral Therapy Certification examination is \$400. This fee must be paid in full by cheque or credit card (VISA or MasterCard) together with the completed application form and it is non-refundable. If the candidate has previously taken the P.T. Certification exams and did not successfully pass, the application fee for a subsequent attempt for this exam is \$100.

In the event that a candidate is prevented from taking the exam on the examination date due to illness, injury or family emergency, the candidate must notify the Board office of the situation as soon as possible. The examination fee can be credited toward the next available examination session (the candidate must submit a new application for the next exam session and pay a deferral administration fee of \$25.)

The examination will consist of two parts:

- a written exam with 50 multiple choice questions; duration one hour (maximum)
- a practical exam including patient assessment, clean field preparation, sterile technique, preparation of vitamin/mineral formulation bag and starting an IV line with angiocatheter.

All necessary equipment and supplies will be provided at the examination.

If you have any other questions about the P.T. exams or application procedure, please call the Board office at 416-866-8383 or e-mail to: office@BDDTN.on.ca.

Note: In order to qualify for Parenteral Therapy Certification after completing the exam, the candidate must have taken a CPR training course, level B (such as St. John Ambulance) within the past 12 months. In addition, evidence of malpractice insurance that specifically includes the practice of Parenteral (or IV) Therapy must be provided; the CAND members' group plan through Partners Indemnity Insurance provides coverage for P.T., however some other insurance carriers do not. The annual fee for P.T. certification with the Board is \$400 (in addition to the exam fee). Application for P.T. certification must be made **within 6 months** after passing the exam. Please refer to the *BDDT-N Requirements for the Practice of Parenteral Therapy in Ontario* in the Parenteral Therapy Policy for further details on the requirements for P.T. certification and practice.

BOARD OF DIRECTORS OF DRUGLESS THERAPY – NATUROPATHY
